

**International Design Competition for
Gyeongsangbuk-do Human Resource Development Institute Relocation Project
- Inquiries and Responses -**

PART 01 Plans

No.	Inquires	Responses
1	The competition site seems to be much larger than the required building area+landscape elements, do I need to consider expansion strategy / other buildings that might be constructed in the future?	- There is currently no plan, but various proposals can be made according to the participant's design intention.
2	Is it necessary to plan 400 parking on ground floor? Can all the parking go to the basement?	- Parking spaces should be planned to accommodate 50 cars in the underground parking lots, 400 cars in the ground parking lots, 5 or more buses.
3	Main Building and welfare buildings should necessarily be separate and have separate main entries?	- Various proposals can be made according to the participant's design intention.
4	Can other functions be planned in the basement or only car parking is allowed?	- It can be proposed in consideration of the construction cost.
5	Height Lowest floor: 2nd or higher, highest floors: 10th floor or lower (Highest height: 45m or less) - Can you please elaborate? Does it mean the lowest floor cannot be single?	- It should be planned within the range of more than 2 stories and less than 10 stories (maximum height of 45m or less).
6	Among the "Basic Plan Directions", the dormitory should be planned as a space for future expansion. → Does the dormitory mean the camping facility in the space program on page 27 of the guidelines?	- Yes

7	What will be the future use of the South-East side portion of land in the same lot?	- Currently no plans.
8	Who are the users of the dormitory facility?	- Public officials receiving education
9	Is it possible to place the vehicular entry point from the main axis road or it has to be from the internal road?	- The entrance of the vehicle should be accessible from the main road and should not obstruct the flow of vehicle traffic.
10	Can the 400 nos surface-level parking be placed in multistorey separate building? Or all the 400 parking should be placed in-ground?	- Parking spaces should be planned to accomodate 50 cars in the underground parking lots, 400 cars in the ground parking lots, 5 or more buses.
11	<p>Can't we make any plans for the site southeast of the site? For example, we would like to know if we can plan packaging materials or ingredients. Please refer to the attached picture below.</p> 	- There are currently no plans. Since it is excluded from the scope of the contest site, planing packaging materials or ingredients is not allowed.

PART 02 Submissions

No.	Inquires	Responses
12	Is there any format to name the files in USB?	<ul style="list-style-type: none"> - The file names should not contain words, marks, or symbols related to the participant. - File names should be made autonomously and relate to the contents of the file.
13	Content of Design description – A3, 10 sheets or less (including the cover) should be same as the content on plates drawings?	<ul style="list-style-type: none"> - If the contents of the design description are different from the contents of the drawing plate, penalties may be given through examination. - Additional information not included in the contents of the design plate may be included in the design description.
14	Is scale specified for plans sections too?	<ul style="list-style-type: none"> - The scale of the floor, elevation and section is applied equally.
